

Ceramic Rubber Drive Pulley

Xin Aneng is a company specializing in the manufacture of high-quality Ceramic Rubber Drive Pulley in China, and our products are widely used in heavy industries such as mining and cement. The quality of the Ceramic Rubber Drive Pulley we produce is very good, and after more than 30 years of careful operation, there are many old customers who have repeatedly repurchased and given us a lot of praise. It is also because of the continuous efforts and sweat of more than 30 years that Xin Aneng has many R&D technology patents, and has always been at the forefront of the times, leading the entire industry to make progress and move forward.

Product Description

Xin Aneng is a manufacturer of Ceramic Rubber Drive Pulley in China, with more than 30 years of production and operation experience. We always strive to provide our customers with the highest quality Ceramic Rubber Drive Pulley. In the field of heavy industry, Xin Aneng will be your most solid backing.

The Xin Aneng Ceramic Rubber Drive Pulley is specifically designed for use on conveyors and is designed to withstand heavy weights and rotate quickly. A unique ceramic rubber composite material is specially selected to ensure the highest level of wear durability. Your company's use of our Ceramic Rubber Drive Pulley can extend the life of the conveyor for a certain period of time and increase your company's production capacity. After the drum is assembled, the radial runout tolerance of the outer circle shall comply with the requirements in the table below.

Unit : mm

PulleyD		200 ~ 800	1000 ~ 1600	1800
Radial circular runout tolerance	Non-Lagging Pulley Pulley	0.6	1.0	1.5
	Lagging Pulley	1.1	1.5	2.0

The pulley bearings are FAG or SKF bearings.

Main technical parameters of the drum-Radial runout of drum outer circle

Tail Bend Pulley

$\varphi \leq 800\text{mm} \leq 1.05\text{mm}$

$\varphi > 800\text{mm} \leq 1.40\text{mm}$

Drive Pulley

$\varphi \leq 800\text{mm} \leq 1.05\text{mm}$

$\varphi > 800\text{mm} \leq 1.40\text{mm}$

Static balance accuracy G40

Not only do we achieve the highest level of quality, but we are also able to provide customized services. No matter what equipment and model of conveyor your company uses, no matter what brand your Ceramic Rubber Drive Pulley is, Xin Aneng can customize your unique Ceramic Rubber Drive Pulley for you according to the drawings you provide. If you have any questions or drawings you want to ask, please contact our customer service or send an inquiry. We will respond to your company as soon as possible, solve problems for you at the first time, help you solve any problems of the conveyor faster, and become a friend in the field of machinery.

Xin Aneng also has a perfect service system, if your company buys our Ceramic Rubber Drive Pulley, we can guarantee you the most exquisite service and patience before the sale to communicate with the product well, and produce the Ceramic Rubber Drive Pulley that best meets your expectations. In the after-sales, our service will never stop, our staff will be online every day, as long as you have any doubts, please feel free to find us, we will be the first time to ensure that the after-sales worry-free.

Xin Aneng has built its own inventory warehouse, if your company has urgent orders, please give priority to us, we can deliver the goods to you as soon as possible, to ensure that your company's production and business activities are not affected.

Xin Aneng will adhere to the R&D and innovation of Ceramic Rubber Drive Pulley in the future, continuously improve our product quality and service level, and provide better and better solutions for your company.
